Knowledge for Tomorrow

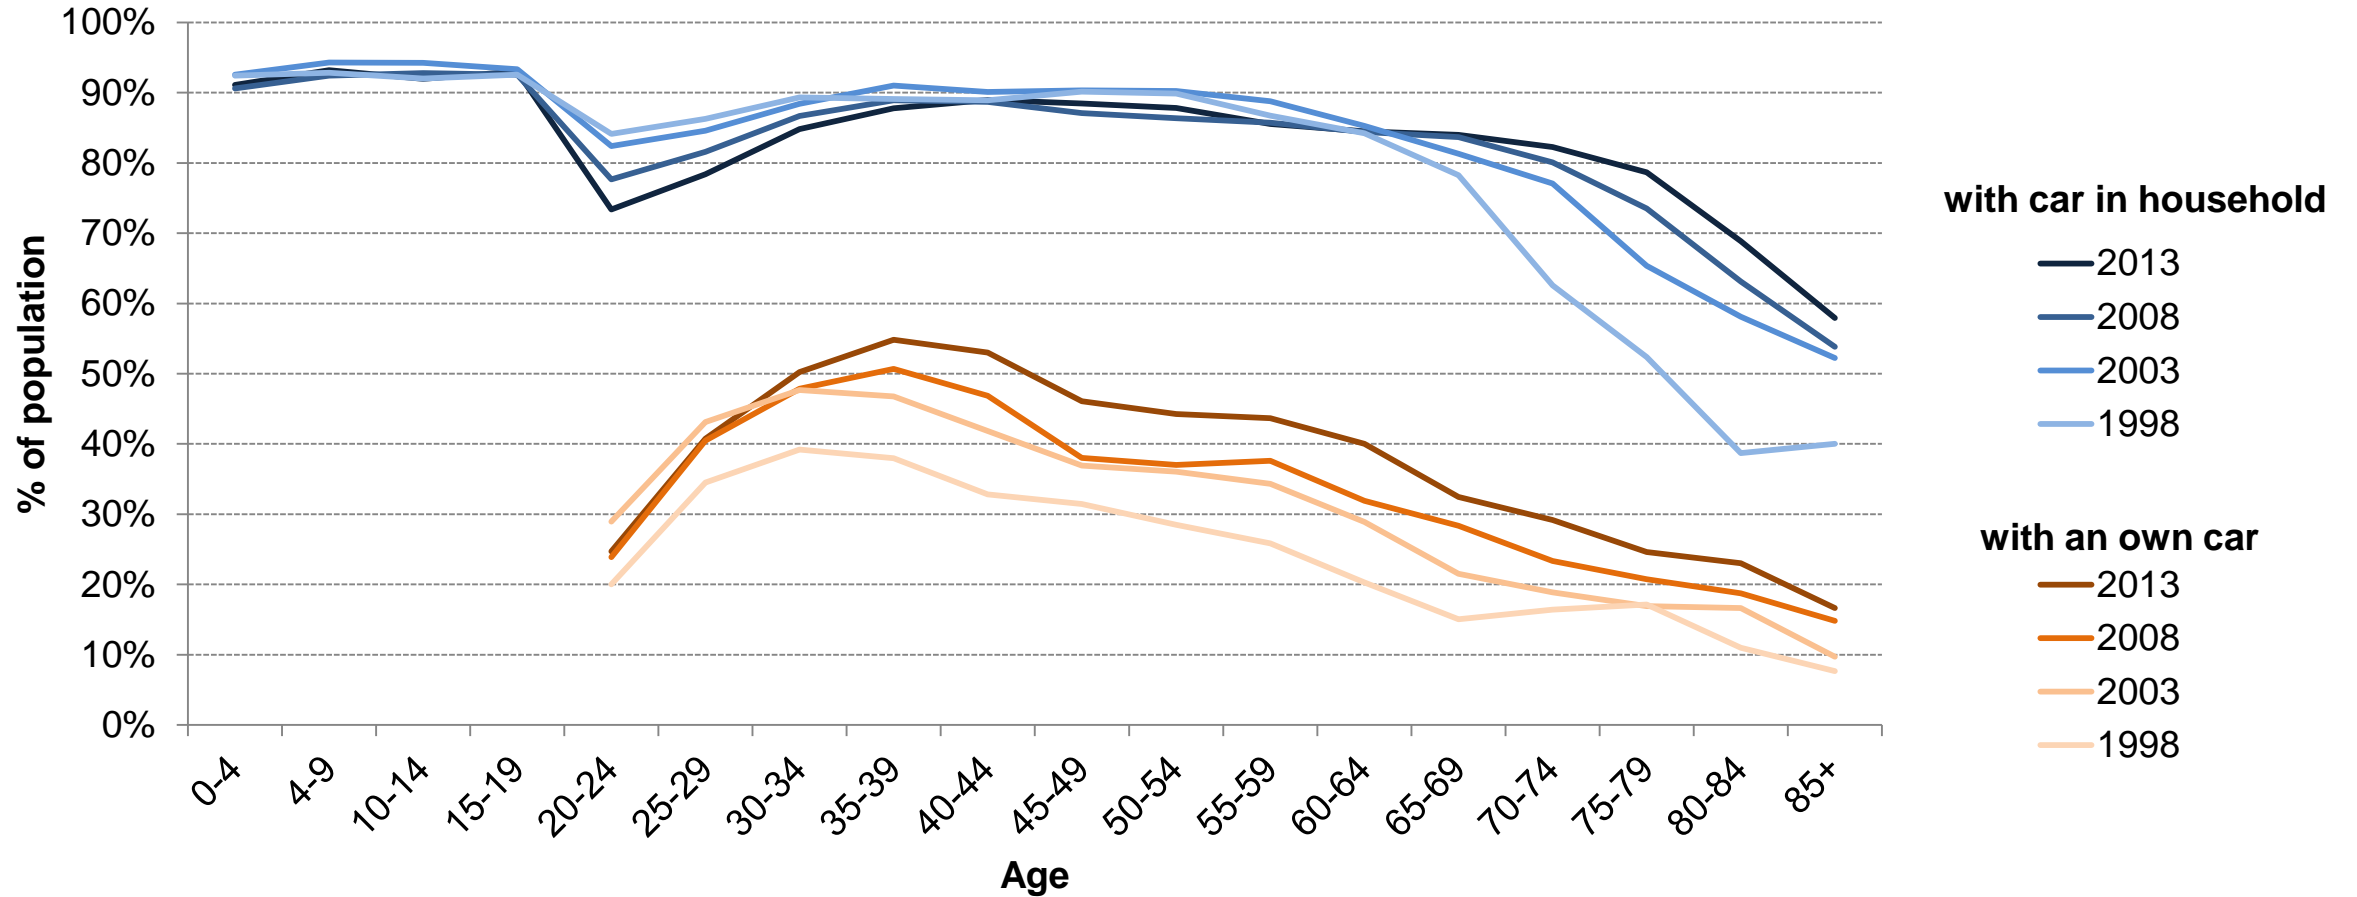

Summary of automobility trends by age group in Germany

	Children & Teenagers	Young Adults	Medium Age Adults	Seniors
Licensing	-	➔	➔	↗
Car in household	➔	↘	➔	↗
Own car	-	↘	↗	↗
Car use	➔	↘	➔	↗

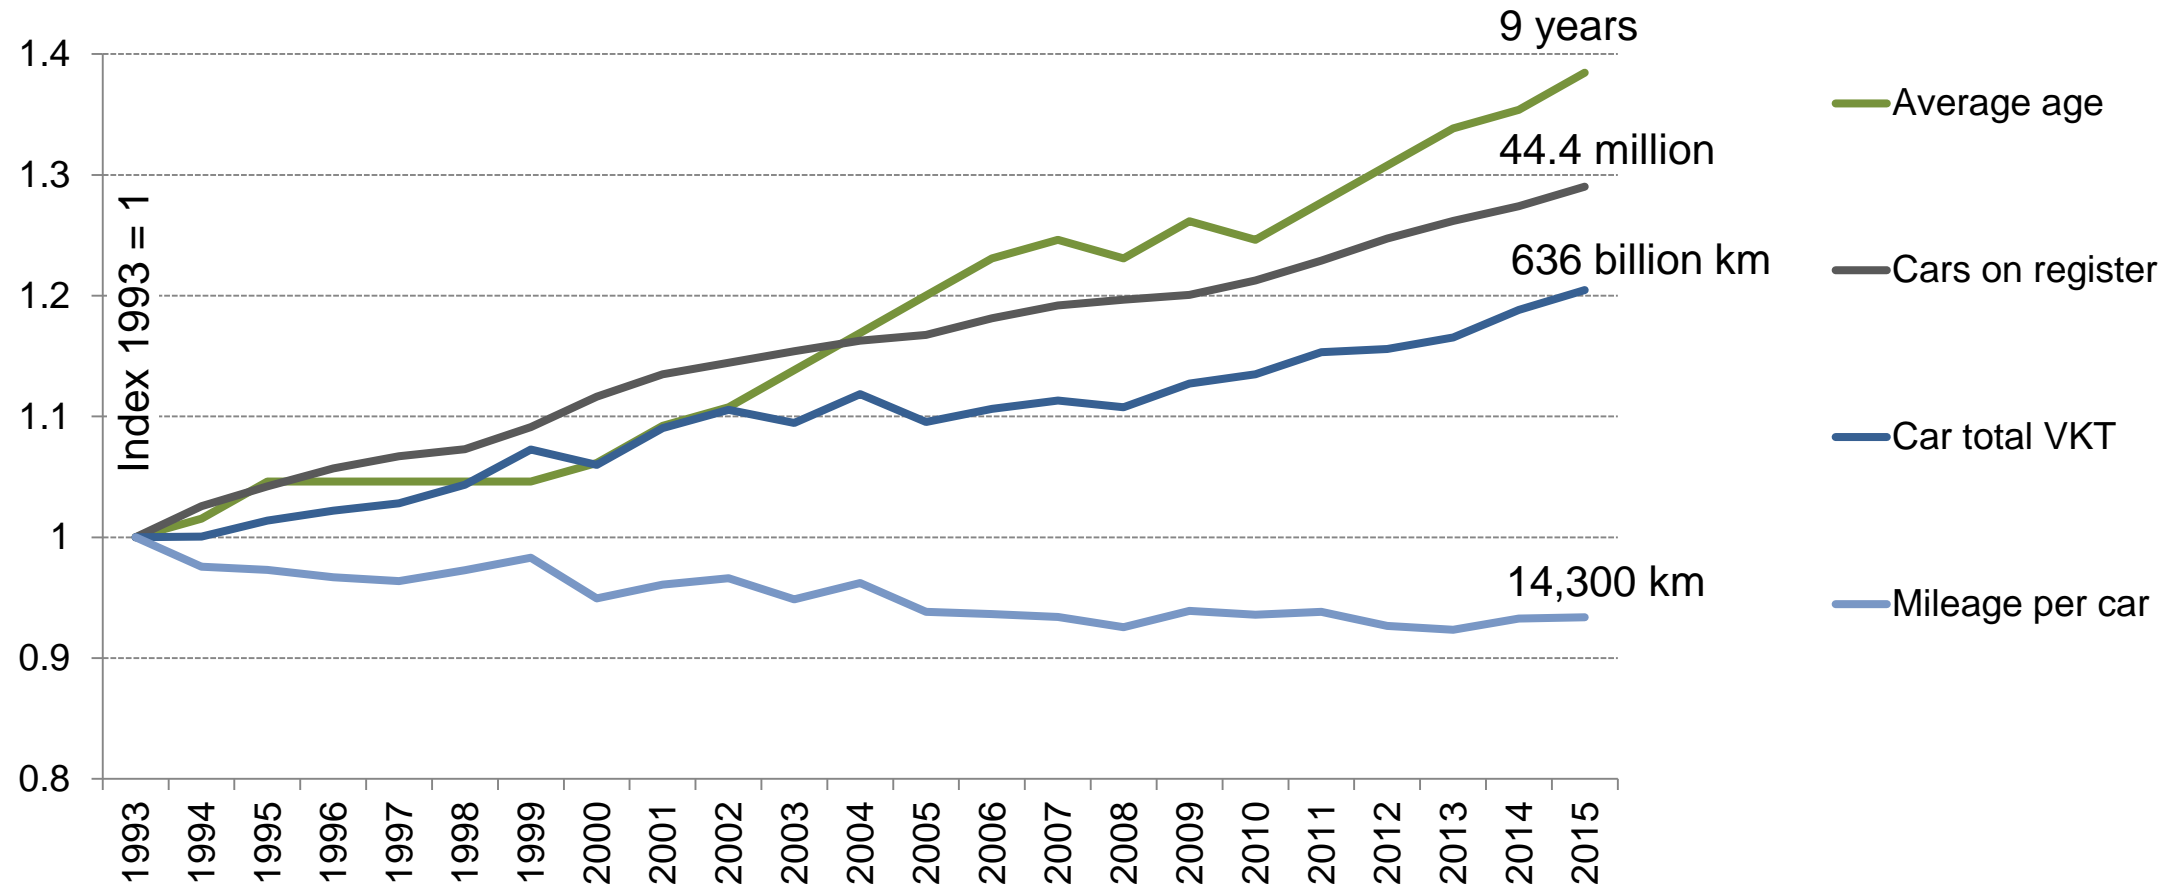

Across age groups, increase of proportion with an own car (= a car for each adult in household)

Source: analysis of German Income and expenditure survey

much more cars, some more total VKT, less mileage per car
 → *more ownership, less sharing, less use*
